

# MODEL TSJ SERVICE JACK

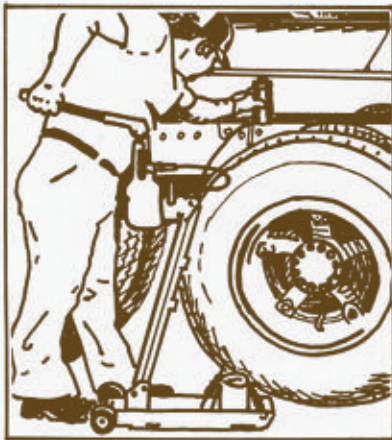

25 TON CAPACITY

Small enough to get into tight spots, strong enough to handle heavy loads, and independent enough to be used anywhere because of the hydraulic pump.

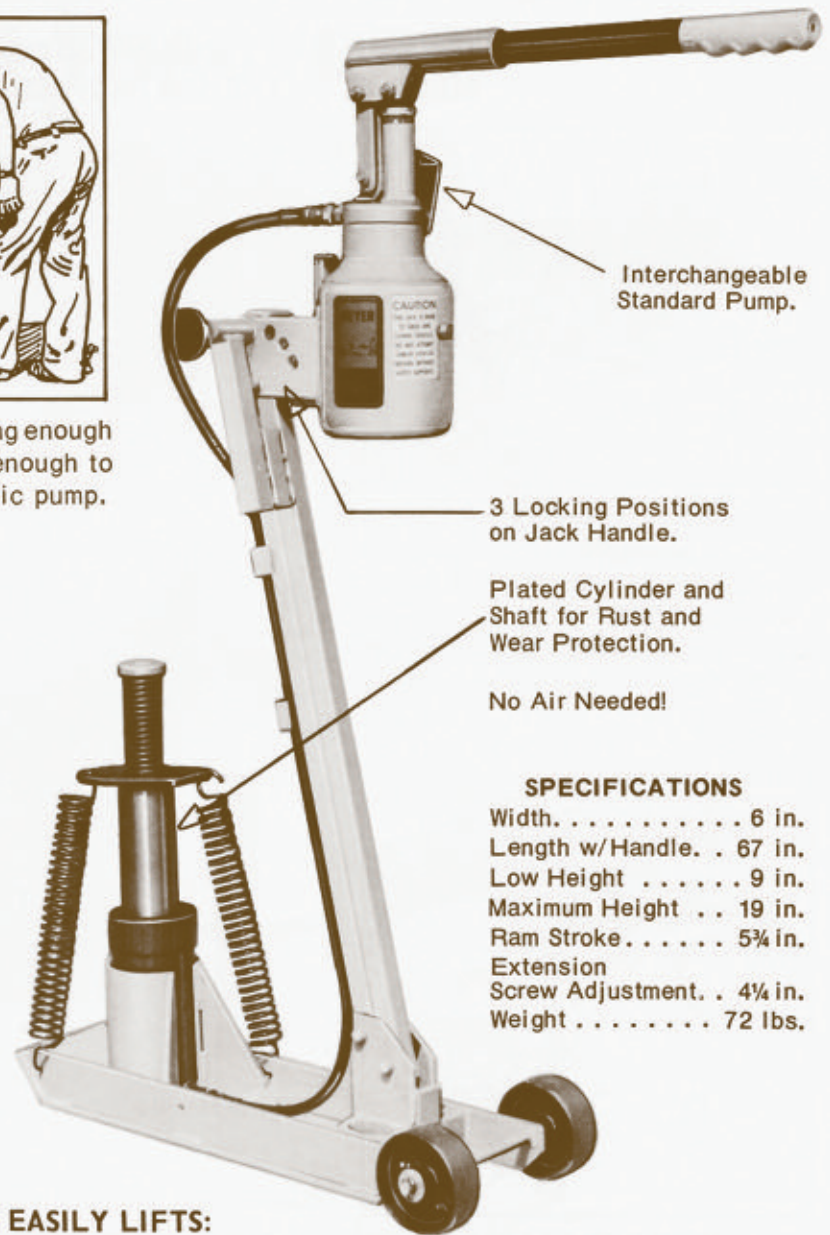

**WHERE USED:**

- Solid or Soft Surfaces
- Road Service and Repair Shops
- Mining and Construction Sites
- Farms and Ranches
- Wherever Heavy Equipment Goes

**USE TSJ AS A PORTABLE RAM**

Straighten, push or press objects by removing the ram from the jack base pad within seconds.

Interchangeable Standard Pump.

3 Locking Positions on Jack Handle.

Plated Cylinder and Shaft for Rust and Wear Protection.

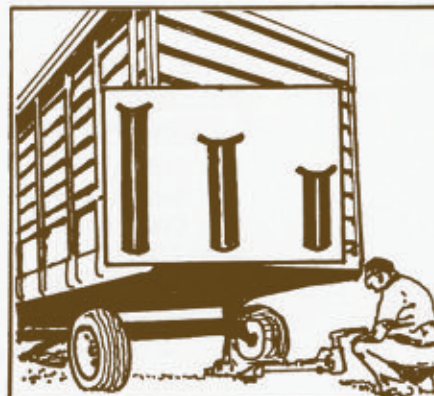

No Air Needed!
